

Companion Animal Physical Rehabilitation

PROGRAM INFORMATION

DESCRIPTION

Animal Physical Rehabilitation program is designed for individuals passionate about improving the well-being of animals. The program combines in-depth theoretical knowledge with hands-on experience to prepare students for rewarding careers in private rehabilitation clinics, veterinary clinics, and fitness/conditioning centers.

Our curriculum is taught by experts in the field and carefully crafted to provide students with a solid foundation in advanced anatomy and physiology, therapeutic techniques, and neurologic and orthopaedic conditions. Students work directly with animals, including clinical cases, applying their knowledge and skills in real-world settings.

With its strong focus on specialized patient care, the program is designed to prepare students for careers in a variety of settings, including private rehabilitation clinics, veterinary clinics, and fitness/conditioning centers.
